

6 Easy steps to embed your Street View | Trusted Virtual tour onto your webpage! 360pano.com.au

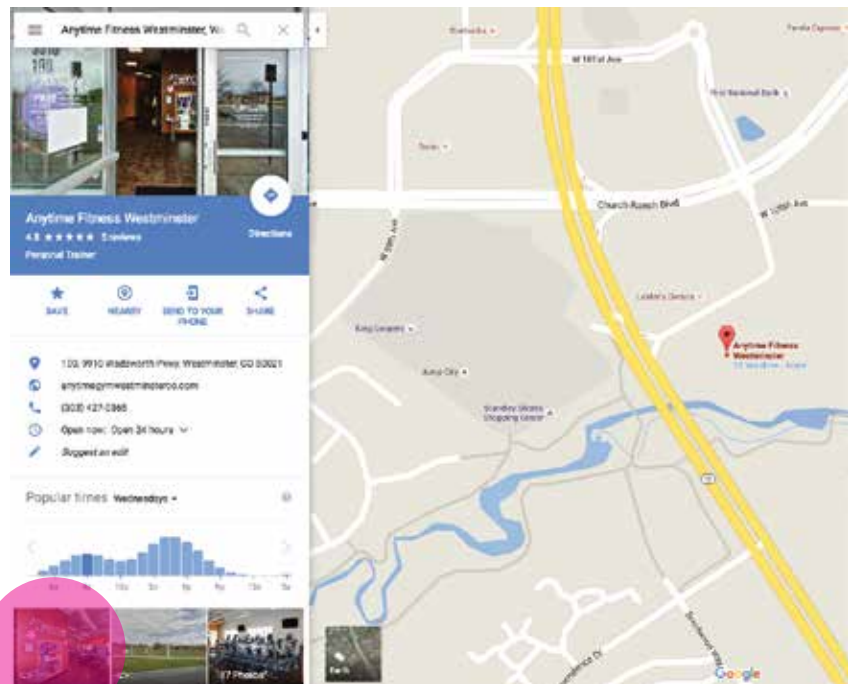

1 Go to Google Maps.

2 In Google Maps, search for your business.

3 Click on your virtual tour (the inside option).

4 In the upper left hand corner you will see an overlay.

5 Expand the overlay options by clicking on the vertical circles

6 Click on the 'embed image' option to produce the html iFrame code which you then copy and paste into your html editor. *Note that in order to embed your tour, your web page creator must support iFrames.
